CONTENTS

Volume 29 No. 1 **January 1987**

A. B. MIKHAILOVSKII, V. P. LAKHIN, G. D. ABURDZHANIYA, L. A. MIKHAILOVSKAYA, O. G. ONISHCHENKO and A. I. SMOLYAKOV: On the theory of Alfvén vortices 1

B. JOYE, J. B. LISTER, J.-M. MORET and S. NOWAK: The radiated power from the TCA Tokamak over a wide range of ohmically heated conditions 27

EQUIPE T. F. R.: Power transmission and shine-through measurements during N.B.I. experiments in T.F.R. by calorimetry inside the torus 37

T.-Y. DAWN and K.-R. CHEN: Analytic study on the location of mode conversion at lower-hybrid resonance 43

H. W. H. VAN ANDEL, A. BOILEAU and M. VON HELLERMAN: Study of micro-turbulence in the TEXTOR Tokamak using CO_2 laser scattering 49

R. BEHN, G. A. COLLINS, J. B. LISTER and H. WEISEN: Observation of density fluctuations at the resonance layers during Alfvén wave heating 75

E. M. EPPERLEIN and A. R. BELL: Non-local analysis of the collisional Weibel instability in planar laser-ablated targets 85

H. AKIYAMA, K. L. WONG, J. GAHL, M. KRISTIANSEN and M. HAGLER: Fast Alfvén wave propagation in a deuterium–hydrogen Tokamak plasma 93

M. M. SHOUCRI: Dispersion relation for a large-orbit gyrotron 105

Research Note

R. BINGHAM, R. A. CAIRNS, A. E. DANGOR, R. G. EVANS, C. J. MCKINSTRIE and W. B. MORI: Saturation of plasma beat waves by collisional damping 115

Letter to the Editor

J. T. MENDONÇA: Resonant wave scattering by magnetic fluctuations 119

Contents of Journal of Physics D: Applied Physics Volume 19, Number 12 i

Calendar of Conferences ii

Volume 29 No. 2 **February 1987**

E. D. POEZD, V. FIALA and A. D. POEZD: Collision effect in ballistic phenomena due to a finite amplitude plasma wave 123

S. IIZUKA and H. TANACA: Mach number limit of electron holes in bounded beam–plasma system 133

F. A. HAAS and A. THYAGARAJA: Energetics of turbulent transport processes in Tokamaks 145

D. BROTHERTON-RATCLIFFE, C. G. GIMBLETT and I. H. HUTCHINSON: Analysis of internal magnetic fluctuations in the HBTX1A reversed field pinch 161

G. F. MATTHEWS, G. M. MCCRACKEN, P. C. STANGEBY, C. S. PITCHER, P. SEWELL and D. H. J. GOODALL: The optimisation of limiter geometry to reduce impurity influx in Tokamaks 189

H. CHEN and D. MONTGOMERY: Turbulent MHD transport coefficients: an attempt at self-consistency 205

G. DURANCE, G. R. HOGG, J. TENDYS and P. A. WATTERSON: Studies of equilibrium in the AAEC rotamak 227

J. C. BHAKTA: A pair of coupled equations for high frequency Langmuir and dispersive ion-acoustic waves with collisional damping 245

Research Notes

J. VACLAVIK and K. APPERT: On the local absorption of linear electomagnetic waves in hot magnetized plasmas 257

B. ABRAHAM-SHRAUNER: Second invariant for the time-dependent Vlasov equation in one dimension 263

R. L. MEYER, I. FIDONE and D. LAMOTTE: Investigation of the electron energy distribution by cyclotron radiation into Tokamak plasmas 267

G. POPA, M. SANDULOVICIU, E. LOZEANU and R. SCHRITTWIESER: Electrostatic ion–cyclotron instability and potential relaxation instability excited by a ring-button electrode 271

Letters to the Editor

V. ANTONI, P. MARTIN and S. ORTOLANI: Experimental evidence of on axis q oscillations in ETA BETA II 279

M.-L. XUE and D. BROTHERTON-RATCLIFFE: A hall dynamo model for the reversed field pinch 287

Conference Report

R. A. CAIRNS: Fusion theory meeting, Wepion, Belgium, 16–18 June 1986 293

Contents of Journal of Physics D: Volume 20, Number 1 i

Calendar of Conferences ii

Volume 29 No. 3 **March 1987**

J. A. TAGLE, P. C. STANGEBY and S. K. ERENTS: Errors in measuring electron temperatures using a single Langmuir probe in a magnetic field 297

S. K. SHARMA and B. DASGUPTA: Scattering of electromagnetic waves by a nonuniform cylindrical plasma in the eikonal approximation 303

A. THYAGARAJA and F. A. HAAS: Two-fluid linear stability of currentless stellarators 313

G. A. COLLINS, A. A. HOWLING, J. B. LISTER and Ph. MARMILLOD: Central mass and current density measurements in Tokamaks using the discrete Alfvén wave spectrum 323

B. LEHNERT: Large Larmor radius effects on density perturbations in a magnetized plasma 341

C. Z. CHENG, H. P. FURTH and A. H. BOOZER: MHD stable regime of the Tokamak 351

S. D. PARANJAPE and D. C. SAHNI: The effect of the angular dispersion term on energy deposition of fast α-particles slowing down in a D–T plasma 367

M. BRAMBILLA and M. MORESCO: The influence of mode mixing on reflectometry density measurements in a reversed field pinch 381

L. WANG: Exchange effect of a hot Fermionic plasma confined in an arbitrary potential barrier. I : the weak magnetic field limit 395

M. J. DE C. HENSHAW, G. J. PERT and D. L. YOUNGS: Non-linear Rayleigh–Taylor instability in (spherical) laser accelerated targets 405

A. AHEDO and J. R. SANMARTÍN: Resonant absorption in a plasma step profile ... 419

Research Note

D. W. FAULCONER: Echo-like nonlocal effect due to parallel magnetic inhomogeneity 433

Letter to the Editor

F. V. KUSMARTSEV: Castastrophe of the Langmuir soliton 437

Book Review

Tokamak Start-up, Problems and Scenarios Related to the Transient Phases of a Thermonuclear Fusion Reactor, edited by H. KNOEPFEL (reviewed by T. N. TODD) 441

Contents of Journal of Physics D: Applied Physics Volume 20, Number 2 i

Calendar of Conferences iii

Volume 29 No. 4 **April 1987**

Review Article

J. ADAM: Review of Tokamak plasma heating by wave damping in the ion cyclotron range of frequency 443

D. M. GOEBEL, G. A. CAMPBELL, R. W. CONN, W. K. LEUNG, K. H. DIPPEL, K. H. FINKEN, G. J. THOMAS and A. E. PONTEAU: Langmuir probe measurements in the TEXTOR Tokamak during ALT-I pump limiter experiments 473

K. SOMASUNDARAM and A. SATYA NARAYANAN: Characteristics of Alfvén Surface Waves along moving cylindrical plasma columns 497

C. F. ZHANG: On the quasilinear renormalization theory of turbulent magnetized plasma 505

R. SCHMIDT and H. HEROLD: A method for time resolved neutron spectroscopy on short pulsed fusion neutron sources 523

D. D.-M. HO and R. M. KULSRUD: Convective equilibrium and mixing-length theory for stellarator reactors 535

T. J. MURPHY: Positron deposition in plasmas by positronium beam ionization and transport of positrons in Tokamak plasmas 549

Letter to the Editor

A. R. PIRIZ: Heavy ion beam driven implosion of spherical shell targets 565

Book Review

Plasmas and Fluids, Physics Through the 1990s by National Research Council (reviewed by E. W. LAING) 571

Volume 29 No. 5 **May 1987**

G. BONNAUD: The influence of stimulated Brillouin scattering on stimulated Raman scattering in inhomogeneous density plasma 573

T. D. KALADZE, V. A. MARCHENKO, O. A. POKHOTELOV and V. I. PETVIASHVILI: Negative energy vortices in inhomogeneous plasma 589

J. A. BITTENCOURT and G. O. LUDWIG: Steady state behavior of rotating plasmas in a vacuum-arc centrifuge 601

M.-F. XIA and W.-M. WU: Radial fluxes due to resonant electrons in lower-hybrid current drive Tokamak 621

W. A. DE ZEEUW, N. YOUSEF and H. DE KLUIVER: Radial electron thermal diffusivities from the perturbation of the electron temperature profile by a turbulent heating pulse in the TORTUR Tokamak 639

P. ROYCHOWDHURY, A. S. PAITHANKAR, S. K. IYYENGAR and V. K. ROHATGI: Characterisation of target plasma required for REB–plasma interaction studies using cylindrical Langmuir probes 651

M. SOLER and A. G. OLIVARES: Analysis of cyclic q-profile evolution during internal disruptions 661

Research Notes

S. G. TAGARE and R. VIRUPAKSHI REDDY: Effect of ionic temperature on ion-acoustic solitons in a two-ion warm plasma consisting of negative ions and non-isothermal electrons 671

P. C. DE JAGHER and F. W. SLUIJTER: Three pole approximations for the plasma dispersion function 677

Book Review

World Survey of Activities in Controlled Fusion Research—1986 Edition, *Nuclear Fusion* (reviewed by M. CLARKE) 679

Calendar of Conferences i

Volume 29 No. 6 **June 1987**

G. G. BORG and R. C. CROSS: Guided propagation of Alfvén and ion–ion hybrid waves in a plasma with two ion species 681

D. PFIRSCH and F. POHL: Entropy principle for Tokamak profiles 697

A. SYKES, C. M. BISHOP and R. J. HASTIE: Resistive ballooning modes and the second region of stability 719

A. GANGULI and R. BASKARAN: $m=0,\pm1$ low frequency fast Alfvén modes of a plasma column loaded in a sheath helix 729

H. OKADA, H. ABE, R. ITATANI and M. ONO: Computational study on propagation and two-species-ion-plasma heating due to the ion-Bernstein wave 743

J. CASTRACANE, Y. DEMERS and H. H. MAI: EUV impurity measurements on the TEXTOR Tokamak 759

R. O. DENDY, R. W. HARVEY and M. R. O'BRIEN: Predictions of electron cyclotron current drive efficiency for a top-launched extraordinary mode in a Tokamak 769

Calendar of Conferences i

Volume 29 No. 7 **July 1987**

P. CHALL, H. KEMPKENS and J. UHLENBUSCH: :Temperature and velocity measurements of argon ions by resonance fluorescence with a single mode Ar-ion-laser ... 779

U. DE ANGELIS, R. FEDELE, G. MIANO and C. NAPPI: Excitation of large amplitude plasma waves in a plasma filled open resonator 789

G. D. CONWAY and J. A. ELLIOTT: Evidence of Kelvin–Helmholtz instabilities in the UMIST linear quadrupole 807

J. H. MISGUICH, R. BALESCU, H. L. PÉCSELI, T. MIKKELSEN, S. E. LARSEN and QIU XIAOMING: Diffusion of charged particles in turbulent magnetoplasmas 825

S. J. TANAKA: Fokker–Planck description of nonlinear electron dynamics in a coherent wave packet 857

V. PETRILLO, G. LAMPIS and C. MAROLI: Global wave treatment of mode conversion and wave damping for perpendicular propagation across the electron cyclotron and upper-hybrid resonances 877

D. ANDERSON, L.-G. ERIKSSON and M. LISAK: Anisotropic analysis of ion distributions distorted by ICRH in a Tokamak plasma 891

W. HORTON, D.-I. CHOI, P. N. YUSHMANOV and V. V. PARAIL: Electron diffusion in Tokamaks due to electromagnetic fluctuations 901

J. W. CONNOR, S. C. COWLEY, R. J. HASTIE and L. R. PAN: Toroidal rotation and momentum transport 919

W. A. COOPER and S. P. HIRSHMAN: Axisymmetric MHD equilibria with isothermal toroidal mass flow by variational steepest descent moments method ... 933

Letter to the Editor

E. MINARDI: Plasma relaxation to force-free states 945

Comments on Published Paper

O. N. JARVIS: "Effect of the magnetic field on fusion reaction rates" 949

S. IMAZU: Response to the comment "Effect of the magnetic field on fusion reaction rates" 951

M. G. HAINES: "Effect of the magnetic field on fusion reaction rates" 953

Book Review

Controlled Nuclear Fusion—Fundamentals of its Utilization for Energy Supply, by J. RAEDER *et al.* (reveiwed by D. C. ROBINSON) 955

Contents of Journal of Physics D: Applied Physics Volume 20, Number 3 i

Contents of Journal of Physics D: Applied Physics Volume 20, Number 4 ii

Contents of Journal of Physics D: Applied Physics Volume 20, Number 5 iii

Calendar of Conferences v

Volume 29 No. 8 — August 1987

A. BAYLISS, L. F. IBÁÑEZ and J. T. HOGAN: Classical transport in nonaxisymmetric toroidal magnetic confinement geometries 957

M. ASHRAF and M. G. RUSBRIDGE: Measurement of the impedance to current flow in a steady-state magnetically confined plasma 969

W. Y. ZHANG and R. BALESCU: Toroidicity effects in electrostatic drift wave turbulence in Tokamaks 1. The coherent electron and ion response 993

W. Y. ZHANG and R. BALESCU: Toroidicity effects in electrostatic drift wave turbulence in Tokamaks 2. The incoherent response 1019

B. K. SINHA and S. R. KUMBHARE: Temperature and turbulence diagnostics of laser produced plasmas from the wavelength shifts of $3/2\ \omega_0$ emission 1037

W. M. JONES, M. C. HEALY and G. L. MCCULLOCH: Ratio of Balmer line to spectrally adjacent emission, from the afterglow of a *Z*-pinch discharge in hydrogen 1045

Letter to the Editor
F. HOFMANN: Axisymmetric stability of triplet-shaped Tokamak plasma 1053

Book Reviews
Laser Plasmas Interactions—3, edited by M. B. HOOPER (reviewed by S. J. ROSE). 1057

Reviews of Plasma Physics, edited by M. A. LEONTOVICH (reviewed by C. N. LASHMORE-DAVIES 1057

Contents of Journal of Physics D: Applied Physics Volume 20, Number 6 i

Calendar of Conferences ii

Volume 29 No. 9 — September 1987

O. ÅGREN: Extension of a kinetic energy principle to toroidal and cylindrical plasmas 1059

S. J. TANAKA: Mapping study of nonlinear electron motion in a coherent wave packet 1067

K. W. GENTLE, B. RICHARDS and F. WAELBROECK: A measurement of hydrogen ion transport parameters in Tokamak discharges 1077

C. F. ZHANG: On the clumps in turbulent magnetized plasma 1093

Y. AKTAS, J. E. WILLETT and P. UDDHOLM: Damping and destabilization of drift waves by electron-neutral collisions 1105

K. OKANO: Exact treatment of charge exchange loss in beam driven currents 1115

F. B. RIZZATO, R. S. SCHNEIDER and D. DILLENBURG: Temperature effects on ion acoustic solitons in plasmas with near critical density of negative ions 1127

G. LAMPIS, C. MAROLI and V. PETRILLO: Oblique extraordinary and Bernstein electron cyclotron waves in a wave dynamical approach 1137

R. O. DENDY: On the canonical Hamiltonian structure of the drift equations of motion for a charged particle in a magnetic field 1155

Conference Report

D. GRESILLON: International workshop on small scale turbulence and anomalous transport in magnetized plasmas 1165

Book Review

Numerical Simulation of Plasmas, Springer Series in Computational Physics, by Y. N. DNESTROVSKII and D. P. KOSTOMAROV (reviewed by T. E. STRINGER 1169

Calendar of Conferences i

CONTROLLED FUSION AND PLASMA PHYSICS
14th EUROPEAN PHYSICAL SOCIETY,
PLASMA PHYSICS DIVISION CONFERENCE

Volume 29 No. 10A **October 1987**

F. ENGELMANN: Preface v

R. S. PEASE: The status of fusion research 1171

K. LACKNER and H. WOBIG: A comparison of energy confinement in Tokamaks and stellarators 1187

S. A. COHEN, J. EHRENBERG, T. T. C. JONES, A. GONDHALEKAR, M. BURES, P. COAD, L. DE KOCK, K. ERENTS, P. HARBOUR, P. D. MORGAN, J. O'ROURKE, J. A. TAGLE, M. WATKINS and The JET-TEAM: Particle balance and wall pumping in Tokamaks 1205

The JET-TEAM (presented by BICKERTON R. J.): Operational limits and confinement in JET 1219

M. BITTER *et al*: High power neutral beam heating experiments on TFTR with balanced and unbalanced momentum input 1235

V. D. SHAFRANOV: Theory of 3D plasma equilibria 1247

R. SIGEL: The generation of intense Planck radiation by laser 1261

G. M. McCracken: Impurity production and transport in the boundary layer of Tokamaks 1273

V. Alikaev *et al*: Power deposition profile effect on the ECH efficiency in T-10 .. 1285

H. A. B. Bodin: Reversed field pinch: status and trends 1297

E. R. Kruglyakov: Mirror research at Novosibirsk 1309

S. E. Bodner, M. H. Emery and J. H. Gardner: The Rayleigh–Taylor instability in direct-drive laser fusion 1333

L. M. Kovrizhnykh and I. S. Spigel: Electron cyclotron heating of currentless plasmas in stellarators 1343

D. C. Schram, Th. H. J. Bisschops, G. M. W. Kroesen and F. J. de Hoog: Plasma surface modification and plasma chemistry 1353

J. Lingertat, K. Guenther and L. Dietrich: Edge plasma structure and power balance in Tokamaks 1365

JT-60 Team (presented by Yoshino R.): High power heating and current drive in JT-60 1377

H. Wobig: Stellarator research—status and trends 1389

M. Keilhacker: H-Mode confinement in Tokamaks 1401

Volume 29 No. 10B **October 1987**

Symposium Proceedings

B. E. Keen: Meeting to mark the retirement of Prof. Donato Palumbo (JET Joint Undertaking, Abingdon, U.K., 18th June 1986) 1415

P. H. Rebut: The history and future of the JET fusion programme 1419

M. Trocheris: The history and future of the French fusion programme 1425

B. Brunelli: The history and future of the Italian fusion programme 1429

R. S. Pease: The U.K. fusion programme 1439

A. Schlüter: The history and future of the German fusion programme 1449

R. TOSCHI: The NET programme 1451

C. M. BRAAMS: Fusion research in the smaller associations 1457

D. PALUMBO: The work of the European Commission in promoting fusion research in Europe and response by Prof. D. Palumbo 1465

General Papers

H. M. RIZK: MHD helical equilibrium model 1475

K. HARAFUJI, T. HAYASHI and T. SATO: Suppression of Tokamak major disruption by resonant helical field 1483

M. KÜHNAPFEL, A. STAMPA, R. TABERSKY and H. TUCZEK: Production of d.c. currents in a plasma by high frequency fields 1501

V. FIALA, E. N. KRUCHINA and V. I. SOTNIKOV: Whistler excitation by transformation of lower oblique resonance waves on density perturbations in the vicinity of a VLF antenna 1511

Letters to the Editor

P. UDDHOLM, Y. AKTAS and J. E. WILLETT: Ion collisional damping of electrostatic waves in a magnetic quadrupole 1523

R. BINGHAM, U. DE ANGELIS, W. MORI and P. K. SHUKLA: Self-modulation of large amplitude Langmuir waves 1527

L. E. SHARP: Reply to criticism of the scintillation technique to measure plasma density fluctuations by Weisen (1986) 1533

Contents of Journal of Physics D: Applied Physics Volume 20, Number 7 i

Calendar of conferences ii

Volume 29 No. 11 **November 1987**

Review Article

S. ATZENI: The physical basis for numerical fluid simulations in laser fusion 1535

A. BARRERO and A. FERNÁNDEZ: Self-similar expansions in ion beam fusion 1605

P. JAUERNIK, H. KEMPKENS and J. UHLENBUSCH: Simultaneous detection of Rayleigh and Thomson scattering signals from a hollow cathode arc plasma 1615

Letter to the Editor

G. A. COLLINS, A. A. HOWLING, J. B. LISTER, PH. MARMILLOD, C. GORMEZANO,

F. PARLANGE, J.-C. VALLET and D. VAN HOUTTE: The effect of lower hybrid current drive on the discrete Alfvén wave spectrum 1631

Contents of Journal of Physics D: Applied Physics Volume 20, Number 8 i

Calendar of Conferences ii

Volume 29 No. 12 **December 1987**

K. C. SHAING: Physical mechanism of plasma currents induced by waves 1637

G. REWOLDT, M. WAKATANI and J. L. JOHNSON: Studies of pressure profile effects on MHD stability in Heliotron-E using the stellarator expansion 1643

L. KRLÍN, P. PAVLO, Z. TLUČHOŘ and Z. GÁŠEK: On the stochastic interaction of monochromatic Alfvén waves with toroidally trapped particles 1653

M. MALACARNE, P. CRIPWELL, P. A. DUPERREXC, A. W. EDWARDS, R. D. GILL, R. S. GRANETZ, F. SIMONET, J. SNIPES and A. WELLER: Fluctuations during JET discharges with H-mode 1675

M. SANDULOVICIU: Pulsatory plasmoids formed in high frequency electric field 1687

R. BHARUTHRAM and P. K. SHUKLA: Electron pressure gradient-driven short-wavelength drift-wave instability and its nonlinear evolution 1695

Conference Report

Report on the 5th European Tokamak Programme Workshop (Toledo, Spain, 17–19 December 1986) (collated by F. ENGELMANN) 1707
